December 1, 1980

Governor William J. Janklow
Members of the South Dakota Legislature
and
Citizens of South Dakota

Pursuant to SDCL 10-1-35, 10-1-36 and 6-9-2, I am pleased to submit the fiscal year 1980 Annual Statistical Report of the South Dakota Department of Revenue.

The annual report is prepared in an effort to provide you with information relative to the value of property for the purposes of taxation for the current year. This report furnishes historical tax data on both the state and local level, the source of state funds, the levy of tax by purpose and the disposition of state levied taxes. In addition, the report provides an explanation of the various state taxes and presents an outline of the Department's organizational structure.

Respectfully submitted,

R. Van Johnson
Secretary of Revenue

Cost per copy $2.82, 500 copies printed.

SECTION I: THE DEPARTMENT OF REVENUE

The major function of the Department of Revenue is to collect and administer various taxes and license fees levied by the state and local governments. In order to do such as effectively and efficiently as possible, the Department has established five major goals. They are:

1. COMPLIANCE – – To use all available resources to insure that all taxpayers fully comply with the entire body of South Dakota tax laws;
2. UTILIZATION – – To insure efficient utilization of state funds through an expanded program of internal auditing and increased managerial supervision of all phases of Department administration;
3. IMPROVEMENT – – To aid improvement of South Dakota's tax laws by working with the executive and legislative branches to research all proposed modifications of South Dakota's tax laws;
4. EDUCATION – – To use all available resources of the Department to serve, assist, and educate South Dakota citizens with respect to the tax laws; and
5. COOPERATION – – To readily cooperate with other jurisdictions in all areas of tax administration.

During fiscal year 1980 the Department has continued several programs and activities designed to achieve the above goals. Some of these programs and activities are:

1. Development and continuation of an audit program which, through selective auditing, insures better compliance with South Dakota's tax laws;
2. The constant updating of the sales and use tax computer program to provide for more efficient processing of returns and reporting procedures;
3. The continued participation in a sales-ratio study in conjunction with the University of South Dakota for the purpose of monitoring the quality of assessment of real property (results from the sales-ratio study are used in a formula to determine state aid to education);
4. Continued participation in a soil survey program for the purposes of determining assessed values for agricultural land; and
5. Expanded programs of training, educating, and certification of property assessors and property tax administrators.

The Secretary of Revenue, appointed by the Governor, is the chief administrator of the Department of Revenue. The office of the Secretary provides effective management of the Department through budget controls and monitoring of activities to insure adherence to established objectives. The office of the Secretary designs and administers a staff support system that provides program management, budget controls, and administrative services for the Department. The office of the Secretary also provides the Governor, Legislature, and citizens of South Dakota with up-to-date information regarding various policies and programs of the Department of Revenue.

SECTION II: DIVISION OF DEPARTMENTAL SERVICES

The Division of Departmental Services was established by the Secretary of Revenue under the authority of SDCL 10-1-16. The Division of Departmental Services exists to serve the Secretary of Revenue and the five tax collecting and assessing Divisions within the Department of Revenue.

1. Legal services include conducting administrative hearings, providing legal advice to the Department, assistance in the drafting of proposed legislation, and handling court litigation that involves the Department.
2. Operation services include the recording and depositing of all incoming tax revenue, maintenance of computer files, and the accounting of all the physical assets of the Department.
3. Financial services include development of budgetary data, recording of Department financial transactions, and general insurance of fiscal responsibility with the Department.
4. Research services included development and review of statistical data, and research involving legislation and regulations.
5. Internal audit services include auditing of Department programs and operations and recommendation of various improvements resulting from internal audits.

SECTION III: DIVISION OF AUDITS

SDCL 10-1-16 provides the authority for audits as a division within the Department of Revenue. Management of the Division is vested in the Director who is under the supervision of the Secretary of Revenue.

The purpose of the Division is to secure and maintain better control over payment of various taxes to the Department. It is primarily responsible, through audit verification of taxpayer records, for all revenues received by the Department according to the various laws, rules, and regulations of the state. Greater control over audit activities has been attained through audit assignments from the office of the Division Director.

During FY 80 the Division completed 496 audits for a collection of $913,203.00 (427 sales and use tax audits for a collection of $875,050.00 and 68 excise tax audits for a collection of $36,133.00, and one laundromat audit for a collection of $2,020.00).

SECTION IV: DIVISION OF SALES AND USE TAX

The Division of Sales and Use tax administers and collects the taxes levied by SDCL 10-45, 10-46, 10-46A, and authorized by 10-52. SDCL 10-45 imposes a tax of four percent, five percent effective May 1, 1980 upon the gross receipts from all sales of tangible personal property, the gross receipts of any person engaged in the practice of a profession, and the gross receipts of any person engaging in certain enumerated businesses or services. SDCL 10-46 imposes a tax of four percent of the value of any tangible personal property which is used, stored, or otherwise consumed in South Dakota, provided the tax levied by SDCL 10-45 has not been paid. SDCL 10-46A imposes a 4% contractor's excise tax on the gross receipts of prime contractors on realty improvements bid after June 1, 1979 and before April 1, 1980. Effective April 1, 1980 a 1½% contractor's excise tax is imposed on the gross receipts of prime and subcontractors on realty improvement contracts bid on or after April 1, 1980. SDCL 10-46A also authorizes minicipalities to impose a ½% contractor's excise tax which is administered by the Division. SDCL 10-52 authorizes municipalities to levy a sales tax, which is administered and collected by the Division.

Management of the Division is vested in the Director, who is under the supervision of the Secretary of Revenue. In addition to the primary responsibilities of administration, collection, and reporting of state and city sales and use tax, the Division also licenses all retailers, collects delinquent accounts and assists taxpayers in all areas of sales and use tax. At this writing the Division has 32,078 sales and use tax licenses on file.

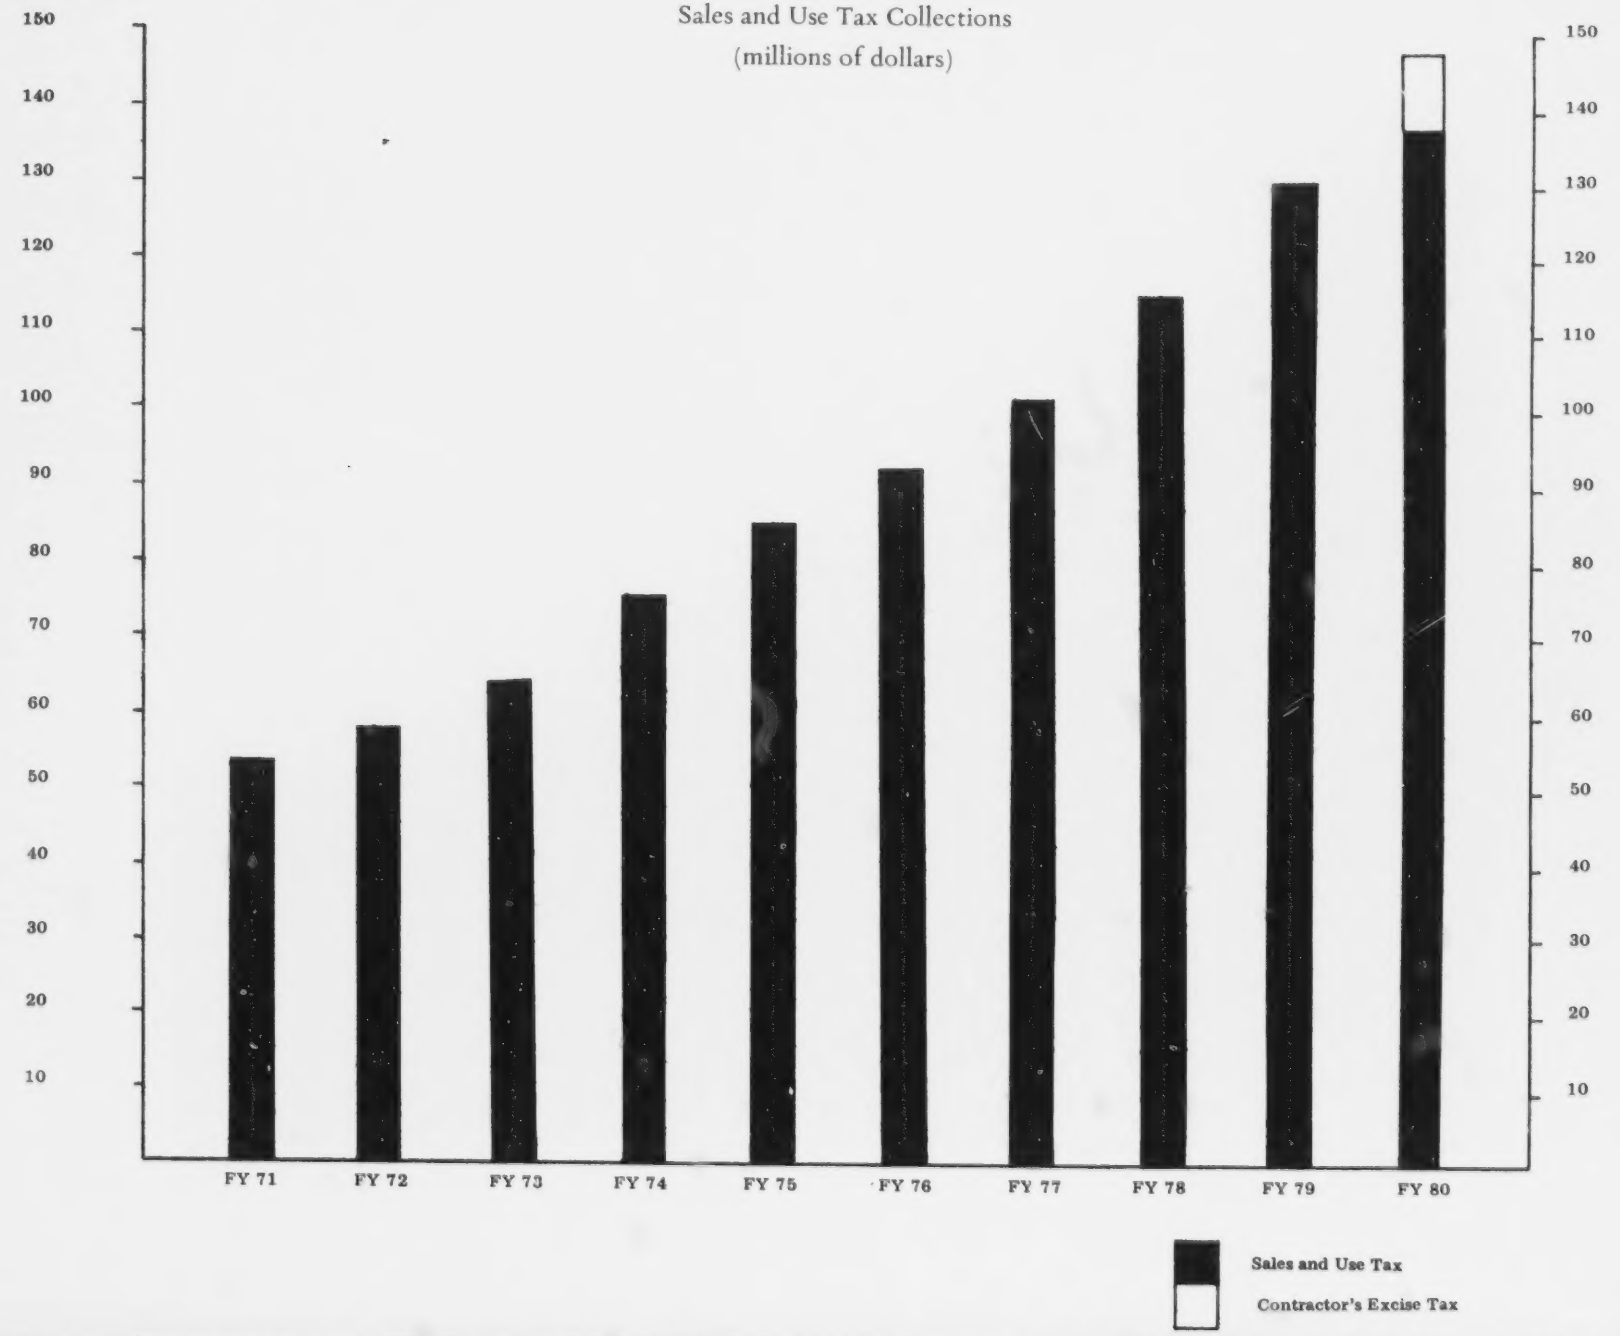
Sales and Use Tax Collections

(millions of dollars)



State sales and use taxes are the most important sources of revenue for the support of state government. State sales and use taxes account for more than half of the taxes collected by the Department of Revenue. The following table shows a breakdown of state sales and use taxes colleced by business classification during fiscal years 1979 and 1980.

SECTION V: DIVISION OF MOTOR FUEL TAX

The Division of Motor Fuel Tax operates under SDCL Chapters 10-47, 10-48, and 10-49 and is responsible for the collection of all fuel taxes on motor and special fuels. In addition, the Division is responsible for the complete and comprehensive accounting for and auditing of all revenue derived under these chapters.

The Division maintains jurisdiction over the licensing and bonding of motor and special fuel dealers and special fuel users whom are controlled under the above statutes. Currently this includes more than 1600 licensees who deal in gasoline, gasohol, diesel fuel, heating fuels, and aviation fuels. Licensees are required to submit monthly reports and tax remittances which are checked for accuracy and then deposited in the proper motor fuel tax funds.

The Interstate User section of the Division processes quarterly reports and tax remittances for over 6400 licensed Interstate Fuel users on fuel used on South Dakota roads and highways. These users are required to report fuel consumed as well as mileage driven in all states, not just South Dakota figures. Approximately 1000 of these licensees are based in the state.

The Motor Fuel Tax Refund section processed 38,292 refund claims during FY 80 and approved payment of $6,227,423,01 in refunds to claimants. The average refund claim amounted to $162.63 while the total amount of refunds issued increased by $657,073.16 over those issued during FY 79. Refunds amounted to 15.8% of the total gasoline tax collected during FY 80 which totaled $39,364,849.28.

The Division also maintains a field audit force of six auditors whose responsibility is to conduct assigned licensee audits. During FY 80 a total of 456 field audits were performed in addition to 85 audit reviews which were performed by office personnel. These field personnel are also responsible for assisting licensees by answering compliance questions and in distributing regulatory information.

SECTION VII: DIVISION OF PROPERTY TAX

SDCL 10-1-15 through 10-1-40, inclusive enumerate various duties of the Secretary of Revenue relative to the fair and equitable administration of the property tax. To assist the Secretary of Revenue in those duties, under authority of SDCL 10-1-16, the Division of Property Tax was established.

The main duties of the Division are to provide assistance to local governments in administration of property taxes and to help insure that all assessments of property are fair and equitable and in compliance with the laws of South Dakota. The Division assists local governments by working with Directors of Equalization and City Assessors, providing field assistance in reappraisals of one or more classes of property, assisting in the appraisals of special properties, and providing data for the assessment of agricultural land based on its productive capacity. The Division helps to insure fair and equitable assessment of property by compiling and monitoring sales ratio data, continual updating of the South Dakota Appraisal Manual, and training and certification of assessing officials throughout the state.

The Division monitors and checks local budget requests based on property tax revenue, and mill levy limitations. The Division also has the responsibility of assessing all railroad and utility property in the state.

The following is a brief step by step synopsis of the way in which property taxes (with the exception of centrally assessed properties) in South Dakota are determined.

Step A. The full and true value of all property in the state is determined by assessment on January 1.

Step B. Early in May each county Board of Equalization sets a percentage which will be the percent that taxable value will be of full and true value, not to exceed 60 percent. At that time the total taxable value in each taxing jurisdiction within the county will be determined.

Step C. The various taxing jurisdictions (county, school district, city, etc.) within the county submit their budgets to the county auditor. This is generally to be done by October.

Step D. Mill levies (within statutory limits) for each taxing jurisdiction are determined by dividing the budget by the taxable value within the taxing jurisdiction and multiplying the result by 1,000. For example if the full and true value of all property within a city is $10,000,000 and the County Board of Equalization determines that 40% of full and true value ($4,000,000) will be taxable value, and the city has a budget of $100,000, the mill levy is computed as follows:

taxable value = 40% x full and true value

taxable value = 40% x ($10,000,000) = $4,000,000

mill levy = (budget divided by taxable value) x 1000

mill levy = ($100,000 divided by $4,000,000) x 1000 = 25.00 mills

Step E. One mill is equal to 1/10 of a cent or 1/1000 of a dollar. Thus from the example in step D, city taxes are $2.50 per $100 of taxable value. For example, if a person has property with a full and true value of $30,000 his city taxes would be computed as follows:

taxable value = 40% x full and true value

taxable value = 40% x $30,000 = $12,000

taxes = taxable value x (mill levy divided by 1000)

taxes = $12,000 x 25/1000 = $300

Step F. Taxes are due on January 1, of the year following the assessment. One-half of the taxes must be paid by May 1 of the year following the assessment and the remaining half must be paid by November 1 of the year following the assessment. All property taxes are paid to the county Treasurer.

EXPLANATION OF THE 1980 STATISTICS BY COUNTY
1979 TAXES PAYABLE IN 1980, ARE BASED ON THE 1979 VALUATION

SCHOOLS

1. Ag and non ag mill levies apply only to the GENERAL FUND FOR SCHOOL DISTRICTS.
   Apply the ag levy against the ag valuation and the non ag levy against non ag valuation.
   *These levies include General Fund plus (Capital Outlay and Special Eduction) if a levy has been made for these. Due to differences in Adjustment and Bond levies for overlapping school districts these have not always been included in the stated levies. (If the levy for Bond is uniform over the whole school district, then is has been included).
2. Taxes are the total for both ag and non ag amounts and also includes taxes for any district with a Bond or Adjustment levy.

† Designates an overlapping school district.

CITIES

This levy and tax is the total amount for city use only.

TOWNSHIPS

This valuation and tax is the total of all organized townships in the county, however it is not possible to list a mill levy due to a variance from township to township. (There are eight counties that do not have any organized townships).

COUNTY

This levy and tax is the total amount for county use only.

SECONDARY ROAD

This is applicable to unorganized townships only.

WATER CONSERVATION

This is a special tax levied and used by the Water Conservancy District only. (Not all counties or part of counties participate).

TELEPHONE OUTSIDE CORPORATE LIMITS

This carries a special levy and the tax from this goes into County General Fund. This is a tax paid by the telephone companies.

SPECIAL ASSESSMENTS

Includes assessments such as sidewalks, curb and gutter, weed mowing.

MOBILE HOMES

This valuation and tax is not included in the above figures, but the tax is apportioned as other taxes and considered as other revenue when setting up the budget.

To determine a total mill levy for any given district you will need to add the ag and/or non ag levy for schools, city, county and any special levy that might apply to that area. In most instances there will be an ag and non ag levy.

SECTION VIII

SOUTH DAKOTA LAND STATISTICS

South Dakota ranks 16th among the fifty states in total area. South Dakota has a total surface area of 77,047 square miles (49,310,080 acres). The total surface area of the state is composed 75,955 square miles (48,611,200 acres) of land and 1,092 square miles (698,880 acres) of inland water.[1/]

There are several units of government as well as private concerns that own the land within South Dakota. Statistics are presented as to federal and state ownership of lands in South Dakota. Statistics as to county, township, and municipal ownership of lands in the state are not readily available, and, therefore, cannot be presented. Private ownership of lands in the state is presented in two categories: Indian and non-Indian.

NOTE: Soil Conservation Service estimates indicate that between the completion of the study and June 1976 approximately 788,000 acres of pasture and range were put to use as cropland. The reader will undoubtedly notice a slight descrepency among the three figures for total land area in the state. For the most part, this descrepency is due to two factors: 1) the data presented are taken from several sources; and 2) the data presented are taken from various time periods.
